PlayPoint Gold - Play Modules

PlayPoint Gold - Play Modules

PlayPoint Gold - Play Modules

All play modules can be equipped with a green, orange or plain wooden frame.

Every play module is TÜV certified and meets all safety requirements.

The products are designed with educational value and produced using only high quality wood.

These play modules can be mounted directly to the wall or into a play system.

A FM-Frame is required to mount the playmodules Memory, Triple Blocks and Wire Beads to the wall. A Wallplate is needed for mounting Playwheels to the wall.

PlayPoint Gold - Play Systems

PlayPoint Gold - Play Systems

All play systems are TÜV certified and meet all safety requirements.

The products are fabricated out of MDF and the graphics are silk printed by traditional means. This guarantees the highest quality.

There are two different kind of play systems; wall graphics and freestanding systems. Playwheels and play modules are included with both types.

It is also possible to design and create a completely unique product. Please contact us for more information about this.

Interactive play systems

Instore Kids Corners interactive play systems are TÜV certified and meet all safety requirements.

All cabinets can take a beating and come with an anti-scratch coating. The 17" high quality industrial screens are protected by 3mm safety glass.

Every PS2 cabinet can also be equipped with a PS3 or XBOX console for a modified price.

The PlayTouch systems use an industrial minicomputer which is installed with special in-house developed software. The mini computer is silent, does not require any ventilation and is completely maintenance free.

Soft elements

Detailshot of sewing

Soft elements

The Softplay elements are a fun alternative for normal furniture or to create extra variation in the kids corner. Kids use the elements for both playing and sitting.

Only high quality artificial leather is used while fabricating these Softplay elements. The design is not printed on these products, but sewed.

The elements, funblocks, Sitsack's and floor mats are easy to clean with standard cleaning products.

Kids furniture

The sturdy kids furniture from Instore Kids Corners make a perfect fit in every kids corner. The attractive colours appeal the children to come play in the kids corner.

All the furniture is produced using high quality MDF or plastic material. All graphics on the tables and chairs are silk printed by hand. High quality and a long lifespan are guaranteed.

A seat height of 30 cm makes these chairs great for children. The fun chairs have longer hind legs and a weighted seat to prevent the chair from tipping over.

Ceiling graphics

Ceiling graphics

These nice ceiling graphics are easy to place in any standard ceiling system using the sizes 60x60 or 120x60.

These graphics generate a child friendly image within the practice and create rest and diversion.

It is also possible to customise the image on the ceiling graphics to your wishes, brand or to fit your corporate identity.

Fences

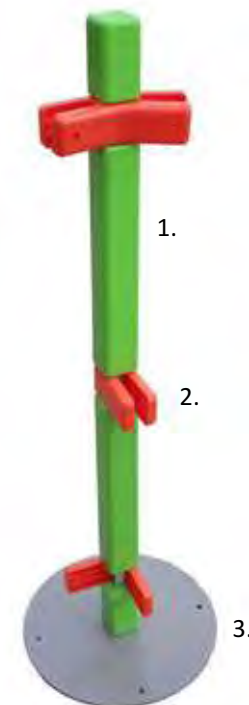

The unique fences from Instore Kids Corners can be produced in different variations, fitting any request or wish.

The poles are available in different heights and colours, and are made of high quality wood.

The connection pieces are made of plastic and are available in three different variations. These parts can form angles of 90, 150 and 180 degree.

The special fabrication makes it possible to mount play modules and/or interactive play systems onto the fence.

Fences
